TRADITIONELLE DEUTSCHE QUALITÄT

DEAR KÖNNER & SÖHNEN® CUSTOMERS AND PARTNERS!

Thank you for your interest in our products. We hope that Könnér & Söhnen® equipment and accessories will become your reliable assistant!

Könnér & Söhnen® was created in Germany with the aim of producing high-quality, reliable equipment available for purchase by a wide range of consumers. Thanks to the many years of experience of our German specialists in the production of generators and garden equipment, we have created a series of products that meet „TRADITIONS OF GERMAN QUALITY“ concept. This is exactly the standard of quality that is passed down from generation to generation, from the master (expert) to the students, from the father to the son, from the producer to the consumers.

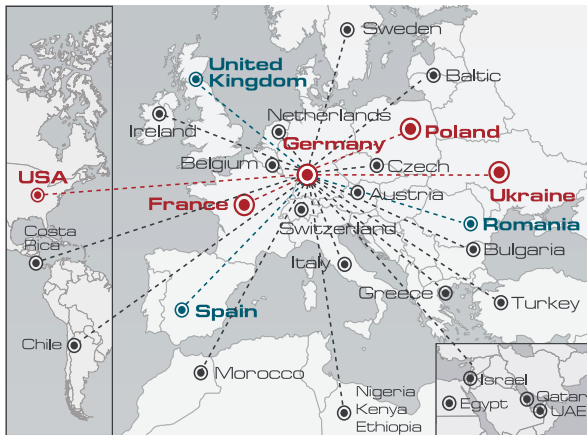

The Könnér & Söhnen® equipment meets all modern European and global standards of quality, efficiency, and environmental friendliness, while passing the test of time and satisfying the demands of discerning European clients. It is recognized by international experts and awards.

We stay strong in pursuing our goals and keep up the tradition of German quality.

KÖNNER & SÖHNEN® IN 2025

In 2025, Könnér & Söhnen® products are already available in high demand, offering **more than 300 items** in **over 20 European countries**. Additionally, they are already present in the United States and countries in Latin America, as well as in many countries in the Middle East (Turkey, Oman, UAE, Qatar, Israel) and African countries (Morocco, Egypt, Nigeria, Ethiopia). The company has 5 offices and 3 official representations, its own service and production centers in Europe, and a well-developed dealer network.

Currently, our equipment is showcased in more than **500 sales** outlets and is commercially available to more than **500 million people**. Every year, we open up 3-5 new markets, set up official representative offices and significantly increase our turnover.

PRODUCT RANGE

Having identified all customer needs, we have carefully selected a range of products with the best features, ultimate reliability, and functionality to best meet the needs of our customers.

KÖNNER & SÖHNEN – ENERGY

Products from the Könnér & Söhnen ENERGY category are modern, high-quality equipment that is used in multiple areas as a reliable backup power source. It is not just backup energy sources - they are innovative solutions that make the world better. All products in the Könnér & Söhnen Energy category are modern, highly efficient devices that meet the highest international quality standards.

- Energy Storage Systems
- Portable power stations, solar panels
- DC Generators
- AC Generators (gasoline, LPG/Gasoline, diesel, inverter)
- Diesel power plants

KÖNNER & SÖHNEN – GARDEN

In creating the Könnér & Söhnen - GARDEN product range we placed special emphasis on environmentally friendly equipment. That's why we've supplemented the range of gardening equipment featuring branded gasoline and electric engines with a broad selection of advanced battery-powered equipment. Thanks to high-quality lithium-ion batteries, these appliances produce no harmful waste during operation and have no impact on the environment or climate in the region.

- Battery-powered garden tools (with lithium-ion battery): Chainsaws, lawn mowers, brush cutters & string trimmers, hedge trimmers, leaf blowers & vacuums
- Electric garden tools: Chainsaws, brush cutters & string trimmers
- Log splitters
- Wood chippers
- Tillers (electric and gasoline)
- Water pumps
- Multifunctional machines 4 in 1

KÖNNER & SÖHNEN – AUTO

Könnér & Söhnen - AUTO – a limited product group of premium quality products. These accessories are manufactured with the use of high-quality components, with attention to every detail. They have an extended service life, are reliable and functional. We offer a series of products that have maximum performance and are comfortable to use, that's why they meet the requirements of demanding consumers.

- Electric vehicle charging stations
- Jump starters
- Portable air compressors
- Car vacuum cleaners
- Automotive accessories

CHARGING STATIONS FOR ELECTRIC VEHICLE

Könner & Söhnen® electric vehicle charging stations provide a reliable and safe charging of electric cars and are **a must-have for every electric vehicle owner!** Although the charger that comes with the electric vehicle has a built-in controller, it does not have built-in protection and is not designed for constant use and high-power charging. It is merely a portable solution in case you go somewhere where there is nothing but a regular outlet, and the car needs to be charged.

✓ UNIVERSAL CHARGING CONNECTOR

Könner & Söhnen® EV charging stations are equipped with the DIN EN 62196-2 Type 2 connectors, which is the most common connection for European electric vehicles. They come complete with a long 5-meter charging cable that allows for a variety of parking options.

✓ UP TO x8 TIMES FASTER CHARGING

Könner & Söhnen® charging stations can deliver much more power than conventional chargers.

Three-phase charging enables the utilisation of capacities not available for single-phase charging.

LED indicators:

- Power
- Connect
- Charging
- Fault

MCB (Miniature Circuit Breaker) and RCD (Residual Current Device) protection

Tempered glass front panel

LCD screen

RFID reader

Emergency stop button

Cable holder and charging connector holder included

+2 CHARGING CARDS

SMART LOAD CONTROLLER KS SLC (optional)

UNIVERSAL CHARGING CONNECTOR

(suitable for most electric vehicles)

USER-FRIENDLY

(suitable for indoor and outdoor use)

WEATHER-PROOF

(can be used in rain or snow)

MULTI-LEVEL PROTECTION

(against overheating, overvoltage, overcurrent, etc.)

ADVANTAGES OF KÖNNER & SÖHNEN® ELECTRIC VEHICLE CHARGING STATIONS

✓ USER SAFETY

Our EV charging stations are safe for the user, both during use and during standby. Although the charging station is plugged in and always ready for use, the charging plug remains de-energised as long as it is not connected to the electric vehicle.

In addition, all EV charging stations from Könnér & Söhnen® have built-in earth leakage protection (especially required in wet weather) that conventional chargers do not have.

✓ SAFETY FOR YOUR HOME

Our EV charging stations are safe for the user, both Conventional chargers offer no protection against burning outlet contacts and the possible risk of fire.

✓ SAFETY FOR YOUR CAR

Our charging stations are equipped with a display of all relevant indicators and multi-level protection.

✓ ANTI-TAMPERING PROTECTION

Our charging stations for electric vehicles have protection against tampering, which means that no one else can use your charging point.

✓ SMART HOME LOAD CONTROLLER CONNECTION OPTION

The Könnér & Söhnen® KS X series charging stations feature integrated programmable logic controller that enables connecting a residential load controller (optional).
